

Activated charcoal

Activated charcoal is produced from natural sources, like wood or peat. During the activation process, intricate, porous structure of the raw material allows for obtaining maximum adsorption surface. The most common form of activated charcoal is black powder.

Intended use: product is recommended for adults.

Recommended use: adults – 1 capsule a day. Do not exceed the recommended daily dose. Food supplements should not be used as a substitute for a varied and

balanced diet.

Ingredients: activated charcoal, bulking agent: cellulose, hydroxypropyl methyl cellulose (shell ingredient), anti-caking agent: magnesium salts of fatty acids, anti-caking agent: silicon dioxide.

Daily dose (1 capsule) contains: 150 mg of activated charcoal.

Pack:

- 20 capsules
