

Blu Baby

dietary supplement

15 sachets

Dietary supplement Blu Baby is a product which contains double standardized

elderberry extract with polyphenols and anthocyanins, vitamin C, zinc and vitamin D.

Elderberry supports the body's natural defenses. Vitamin C, zinc and vitamin D help in the proper functioning of the immune system. In addition, vitamin C and zinc help to protect cells from oxidative stress.

Recommended for:

infants over 6 months of age, children and adults in order to support proper functioning of the immune system.

Ingredients: maltodextrin, L-ascorbic acid (vitamin C), elderberry fruit extract (Sambucus nigra) standardized to 15% polyphenols and 10% anthocyanins, zinc gluconate, cholecalciferol (vitamin D).

Recommended intake:

Infants over 6 months of age: 1 sachet daily;

Children over 3 years of age: 2 sachets daily;

Children over 12 years of age and adults: 3 sachets daily.

Do not exceed the recommended daily dose. Food supplements should not be used as a substitute (replacement) for a varied diet. Maintaining proper health requires a balanced diet and a healthy lifestyle.

Recommended Use:

Dissolve the contents of 1 sachet in a small amount of lukewarm water or tea. Consume immediately after preparation.

A daily serving contains:	1 sachet:	2 sachets:	3 sachets:
---------------------------	-----------	------------	------------

Double standardized elderberry fruit extract, including:	13,2 mg	26,4 mg	39,6 mg
