

Chokeberry Juice with vitamin C

Chokeberry (*Aronia melanocarpa*) is a shrub that belongs to the rose family. Its fruits are a rich source of polyphenols, showing a number of beneficial properties for the human body, including antioxidation, sealing blood vessels, protection of the heart muscle, antiviral and antibacterial properties.

The multidirectional effect of black chokeberry fruit, confirmed by scientific research, has made products made of them successfully used for health-promoting purposes and as an auxiliary in the treatment of many civilization diseases. The protective and stimulating effect of aronia polyphenols on the functioning of the cardiovascular system as well as lowering the levels of triglycerides and cholesterol in the blood. Many scientific studies have confirmed the positive effect of chokeberry fruit extracts in the prevention and course of type II diabetes.

Chokeberry anthocyanins have also been shown to improve color vision, twilight vision, and image registration by accelerating the renewal of rhodopsin in the rods of the retina. The antioxidant properties of chokeberry preparations had a beneficial effect in both developing cataracts and macular degeneration. In addition, the flavonoids contained in chokeberry fruit improved the elasticity of the capillary walls within the eyeball, reducing their brittleness and permeability.

Our product is a combination of 99.95% chokeberry juice (*Aronia melanocarpa*) and vitamin C, thanks to which it supports your immunity even better! In addition, vitamin C supports the work of the nervous system, protects cells against oxidative stress and the proper production of collagen. It also helps to reduce the feeling of fatigue!
