

Collaflex Osteum

Collaflex line of products contains Collatrin® which provides components present in the cartilage: type II collagen, chondroitin sulphate and hyaluronic acid. They are present in their hydrolyzed, low molecular weight form which is highly absorbable from gastrointestinal tract. Collaflex Osteum is a food supplement which additionally

contains vitamins: C, D₃ and K₂. Vitamin C contributes to normal collagen formation for the normal function of cartilage and bones and contributes to the protection of cells from oxidative stress. Vitamin K and vitamin D contribute to the maintenance of normal bones. Collaflex Osteum contains vitamin K₂ – menaquinone-7 (MK-7). It is of crucial importance, as this very chemical form of vitamin K has a role in bone metabolism and takes part in the process of building calcium into the bone structure. Moreover, vitamin D contributes to normal absorption/utilisation of calcium and phosphorus, to normal blood calcium levels and to the maintenance of normal muscle function.

INTENDED USE: product supplements diet in type II collagen, chondroitin sulphate, hyaluronic acid, vitamin C, vitamin D₃ and vitamin K₂. Product is recommended for people who want to maintain normal cartilage and bones, especially for the elderly and people engaged in intense physical activity.

RECOMMENDED USE: adults – 1 capsule twice a day. Do not exceed the recommended daily dose. Food supplements should not be used as a substitute for a varied and balanced diet. Maintaining normal health requires a varied and balanced diet and a healthy lifestyle.

INGREDIENTS: Collatrin® (hydrolyzed components of the cartilage extracellular matrix: type II collagen, chondroitin sulphate, hyaluronic acid), gelatin (shell ingredient), L-ascorbic acid, anti-caking agent: magnesium salts of fatty acids, inulin, cholecalciferol (vitamin D₃), menaquinone (vitamin K₂), anti-caking agent: silicon dioxide, colour: titanium dioxide.

Daily dose (2 capsules) contains: 700 mg of Collatrin®, of which: 420 mg of type II collagen, 140 mg of chondroitin sulphate and 70 mg of hyaluronic acid; 100 mg of vitamin C (125%*), 50 µg of vitamin K₂ MK-7 (67%*), 50 µg of vitamin D₃ (2000 IU,

1000%*).
