

Collaflex Sport

Collaflex Sport contains two types of collagen: type I collagen and type II collagen.

Type I collagen is the main component of tendons and ligaments.

Type II collagen is the basic type of collagen present in the extracellular matrix of

the cartilage. Product contains a hydrolyzed, low molecular weight form of collagen type II which is highly absorbable from gastrointestinal tract. Type II collagen in the product comes from Collatrin®, which also contains other components present in the cartilage: chondroitin sulphate and hyaluronic acid.

Collaflex Sport also contains vitamin C and manganese. **Vitamin C** contributes to normal collagen formation for the normal function of cartilage and bones and contributes to the normal function of the immune system. Additionally, vitamin C contributes to the reduction of tiredness and fatigue and to normal energy-yielding metabolism. **Manganese** contributes to the normal formation of connective tissue which builds cartilage and tendons (among others). Manganese also contributes to the maintenance of normal bones and to normal energy-yielding metabolism.

Intended use: product supplements diet in type I collagen, type II collagen, chondroitin sulphate, hyaluronic acid, vitamin C and manganese. It is recommended for people who want to maintain normal cartilage, tendons and ligaments, especially for people engaged in intense physical activity.

Recommended use: adults – 1 capsule twice a day. Do not exceed the recommended daily dose. Food supplements should not be used as a substitute for a varied and balanced diet. Maintaining normal health requires a varied and balanced diet and a healthy lifestyle.

Ingredients: Collatrin® (hydrolyzed components of the cartilage extracellular matrix: type II collagen, chondroitin sulphate, hyaluronic acid), gelatin (shell ingredient), hydrolyzed type I collagen, L-ascorbic acid, anti-caking agent: magnesium salts of fatty acids, inulin, bulking agent: cellulose, manganese gluconate, anti-caking agent: silicon dioxide, colour: titanium dioxide.

Daily dose (2 capsules) contains: 500 mg of Collatrin®, of which: 300 mg of type II collagen, 100 mg of chondroitin sulphate and 50 mg of hyaluronic acid; 100 mg of type I collagen, 60 mg of vitamin C (75%*), 1.2 mg of manganese (60%*).
