

MAG-Vitum B6 CRAMP effervescent

MAG-Vitum B6 Cramp effervescent is a dietary supplement that contains potassium, magnesium and vitamin B6.

The preparation is recommended for adults to supplement their diet with potassium, magnesium and vitamin B6. The product is especially recommended for active

people, practicing sports, intensively working and learning.

- potassium in the form of citrate and chloride
- magnesium in the form of citrate and oxide
- 300 mg of potassium in a daily dose
- 100 mg of magnesium in a daily dose
- 24 tablets in a tube
- daily dose – 2 tablets
- natural orange flavor

Potassium helps in the proper functioning of the muscles and the nervous system, and also helps maintain normal blood pressure.

Magnesium and vitamin B6 contribute to maintaining proper energy metabolism and reducing the feeling of fatigue and weariness. In addition, **magnesium** helps to maintain electrolyte balance and **vitamin B6** helps in the proper functioning of the nervous system and in maintaining proper psychological functions.
