

Nononek – clearing nasal spray with aloe and mint

NOSON sea water comes from the **bay of Cancale in Breatania**, known for the quality of its waters. This bay is characterized by high tides (up to 12 m) and strong currents, preventing water pollution. Thanks to this unique specificity, the water is constantly cleansed and remains clean.

Samples are taken automatically when the water quality is optimal (2 hours, 1 hour before and 0.5 hours after the flow period). The sampling **area** is a **class A area** and is subject to constant monitoring for microbiological, chemical contamination, pH, phytoplankton, etc.

A nasal nasal solution that relieves medical conditions characterized by increased nasal discharge. Daily use of the product helps to clean the nose and protects and moisturizes the nasal passages. Hypertonic sea water solution has strong moisturizing properties, and the addition of aloe vera supports and prolongs its action. The above ingredients help to counteract the proliferation of microorganisms in the nasal passages. In contrast, mint provides a pleasant and fresh aroma.

The NOSON nasal spray maintains the beneficial properties of natural sea water.

Composition:

sea water, purified water, aloe vera extract, mint flavor
