

Propolis + Vitamin C

Diet supplement

Propolis + VITAMIN C.

Vitamin C helps in the proper functioning of the immune system and protects cells against oxidative stress.

The preparation contains vitamin C and propolis extract standardized for 3% polyphenol content.

Propolis, also known as bee putty, is a resinous substance produced by bees and used by them, inter alia, for disinfecting beehives.

Vitamin C helps to protect cells against oxidative stress and helps in the proper functioning of the immune system and the nervous system. In addition, it increases the absorption of iron, and also contributes to the reduction of tiredness and weariness.

Application: the preparation is recommended to children over 6 years of age and adults in order to support the proper functioning of the immune system.

Recommended consumption: children over 6 years of age – 1 capsule a day, adults – 2 capsules a day. Do not exceed the recommended daily dose. Dietary supplements cannot be used as a substitute (replacement) for a varied diet. Maintaining proper health requires a balanced diet and a healthy lifestyle.

Attention! Pregnant women and people allergic to bee products should consult a doctor before consuming the preparation.

Ingredients: bulking agent: cellulose, propolis extract standardized for 3% polyphenol content, gelatin (shell component), L-ascorbic acid (vitamin C), anti-caking agent: magnesium salts of fatty acids, anti-caking agent: silicon dioxide, color: titanium dioxide .

The daily dose contains:	1 capsule	2 capsules
Propolis extract, including: Polyphenols	100 mg 3 mg	200 mg 6 mg
Vitamin C	40 mg (50%*)	80 mg (100%*)

*% of the nutrient reference value

Storage: Store at room temperature in a dry and dark place. Dietary supplements should be stored out of the reach of small children.
